

Mercy ASM Discovery & Assessment

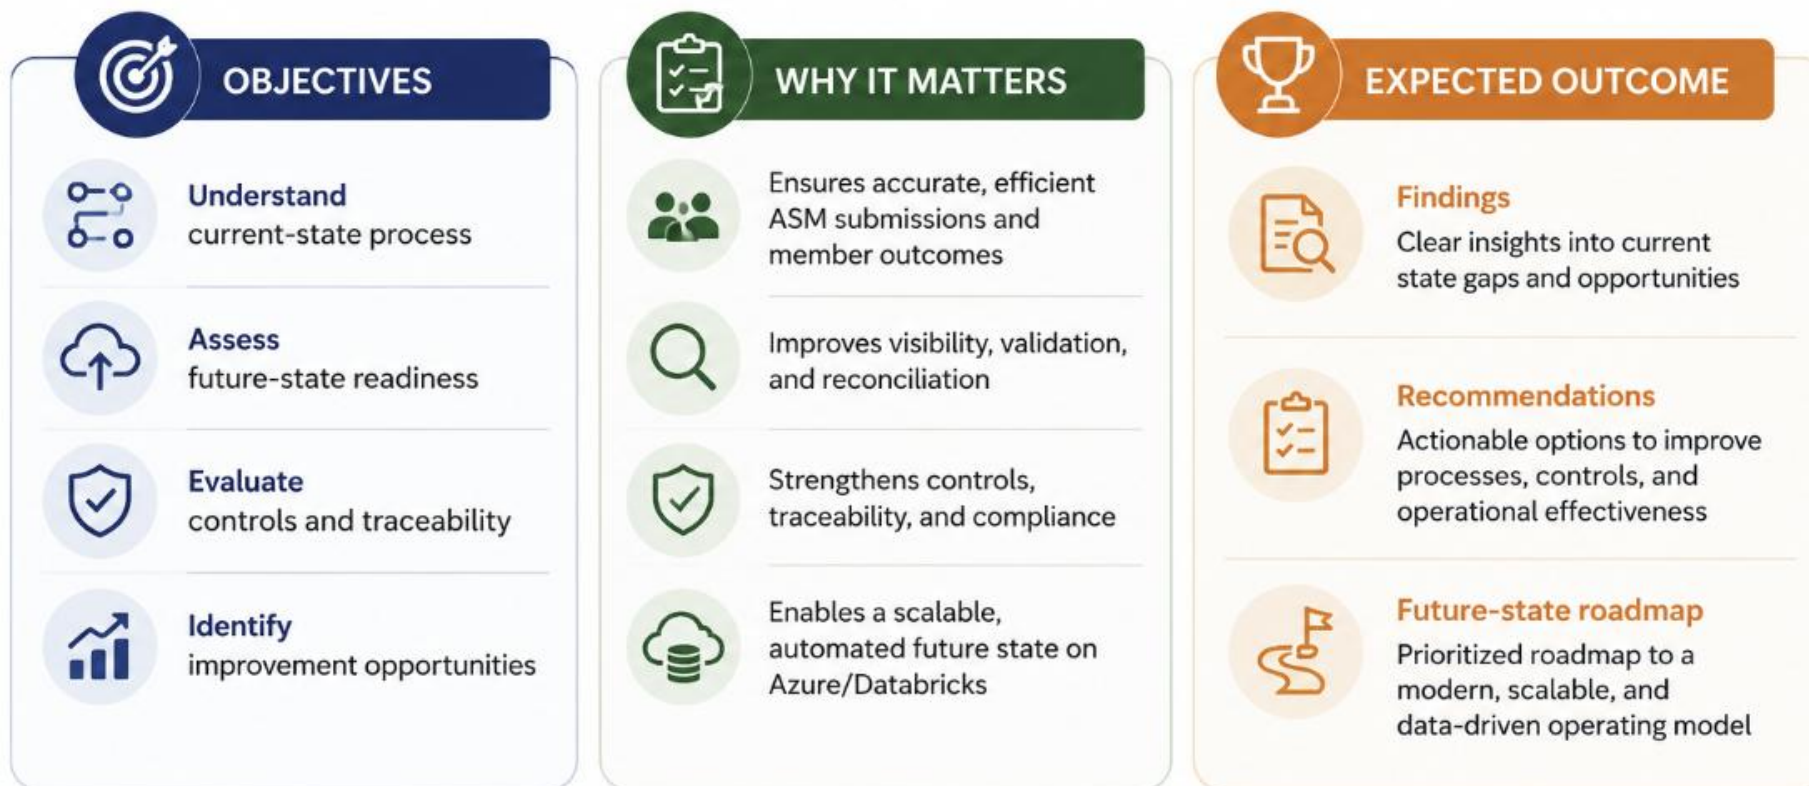

Project Kickoff

06/01/2026

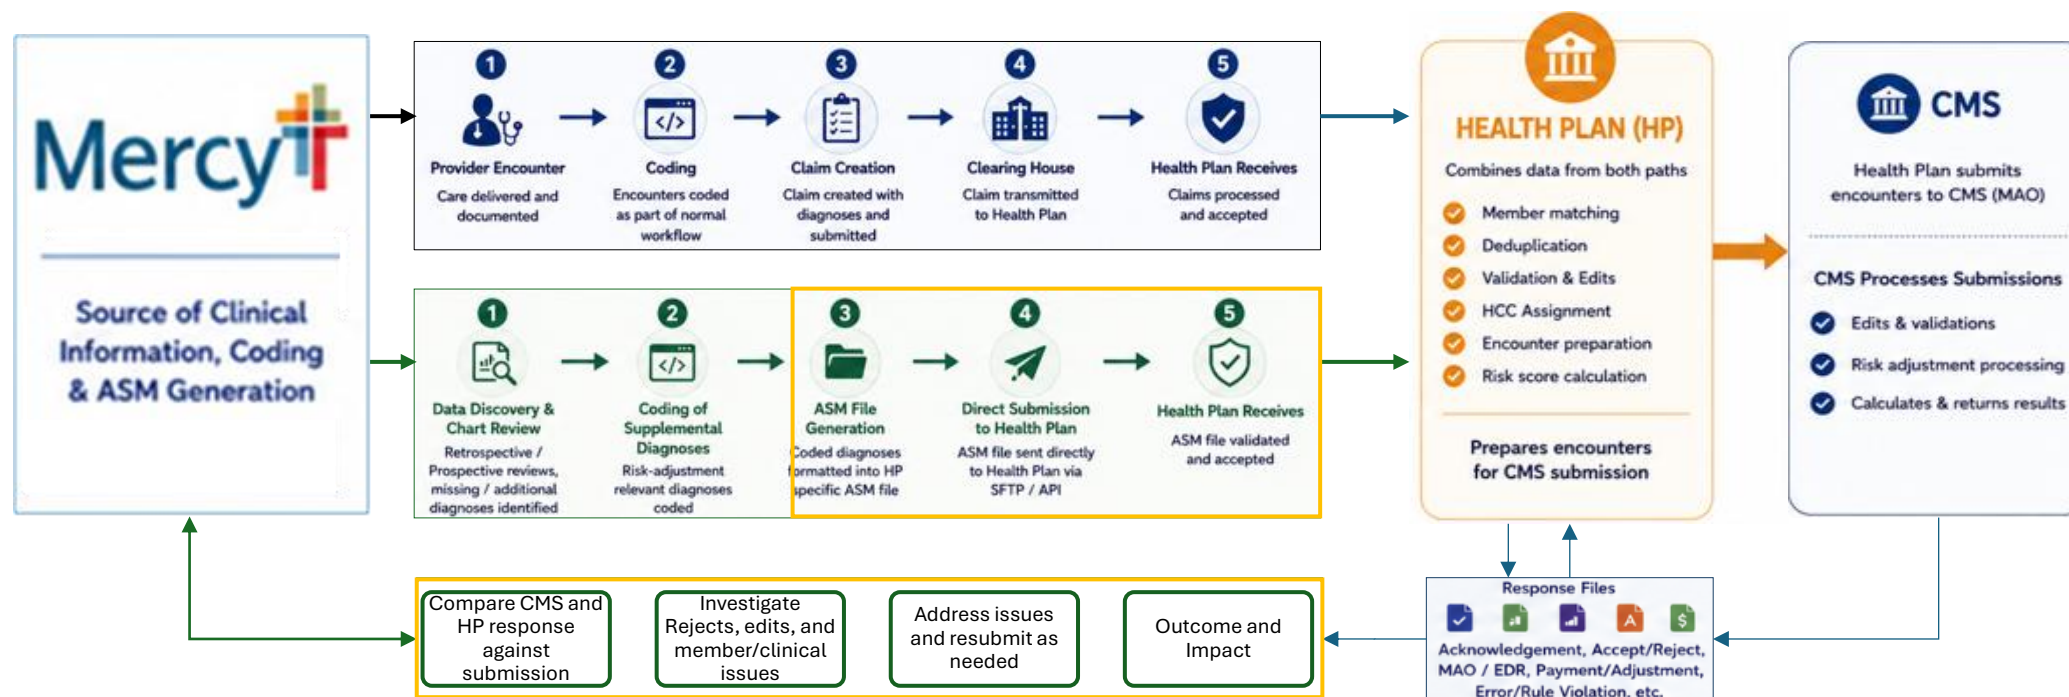

Introduction

Mercy is evaluating its ASM direct-submission operating model as and when it is transitioning toward an Azure/Databricks future state.

ASM Discovery & Assessment Overview

Project Scope: Evaluate the ASM direct-submission lifecycle—from ASM file generation through Health Plan validation, processing, and CMS response reconciliation—to identify process, control, traceability, operational, and future-state improvement opportunities.

Stakeholders

Executive Sponsors

- Gavin Helton
- Michael Sarli

Project Lead

- Sandra Weiler

Primary Discovery Resources

- Fred Chen
- Jennifer Oldfather
- Linda Reed
- Ronald Goode
- Aaron Peterson (PTO)

Supporting Participants

- Amber Bruno
- Emily Hogan
- Kalli Castille
- Kate Barker
- Marie Collins Hespen
- Melissa Liehr

Project Lead

- Kate McClure

Supporting Participants

- Kenny Misir
- Jay Ahlmer
- Lou Steinberg

Consulting Resources:

- Samir Rawat
- Vinod Gnawali
- Jay Baker

Questions & Discussion

We appreciate your time and participation.
We look forward to a productive discovery
and meaningful collaboration.

Thank you for your partnership. We are excited to get started.
